**Subject:** Selenium Egg/Ovary Recalculation

Hey Joe,

Haven't chatted in a while, hope you're well. Quick Koocanusa question – did you ever publish/release the work that you did to recalculate the EPA selenium egg/ovary criterion with a target of 100% protection (instead of 95% protection)? I know that you discussed the results (which resulted in a number around 10 or 11 ug/g). I'm trying to find what you wrote up but can't locate a report, just some meeting notes.

Thanks!

Jason
